

December Portal Project:

- When assigning shifts to employees, or when viewing their files, have their credentials show in front of their names, e.g., Delvin Mongare, RN.
- When uploading new shifts have the address of the already input facility appear automatically.
- Change the dark parts of the page to cream white:

- Change the maps sections to be a link instead of the whole address:

- Enable users to change their passwords at login.

- Remove icons in the shifts query below and allow “location” to be clickable directing to maps or google maps.

- Change shifts status from “taken” to “filled”.

Shift Details

Shift Date: 17-Dec-2022

Start and End Time : 06:45 AM – 03:15 PM

Facility : Carondelet Village, PHS

Facility Type : Long Term Care

Credential : RN/LPN

Location : 525 Fairview Avenue South, Saint Paul, MN, USA

Shift Status : Open

- When uploading new shifts, the system is uploading duplicate shifts. Only one shift is to be uploaded unless facility wants to duplicate a shift on the same day.

- Allow system to upload multiple shifts (of the same time) Say a facility needs staff on Monday – Friday 6am – 2pm. Allow to upload repeat shifts instead of uploading one shifts each at a time to save time.

today

December 2022

month week day

Sun	Mon	Tue	Wed	Thu	Fri	Sat
27	28	29	30	1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31
1	2	3	4	5	6	7

- Add option to each day to create a shift query from the calendar.
